The Commissioners are doing everything in their power to expedite the preparation of the facts in the District files and records, and they have already sent several installments of these facts to the executive committee, and more are promised immediately.

The finance committee, composed of the presidents of the civic organizations represented, with the president of the Chamber of Commerce, P. T. Moran, as chairman and treasurer, has been steadily at work, chiefly among

the members of the different organizations through subcommittees appointed by each president.

A number of persons not members of the organizations have sent checks direct to Chairman Macfariand or to Mr. Moran as treasurer. It is hoped by the executive committee that all citizens who have not already done so will promptly transmit their checks in any amount from \$1\$ to \$150\$ at once, so that the committee may know what it has to count upon. The money is to be spent for necessary expert and clerical assistance and for printing and postage.
